

KEY BENEFITS

Advantages of Hosting

Perhaps the number one advantage of hosting is the peace of mind that comes with the service. With hosted Microsoft Exchange you gain all the messaging functionality you need with none of the administrative burden. As part of your monthly service, you get:

- No capital expenditure
- Built-in redundancy for peak performance
- Server, network, and infrastructure security features
- Timely upgrades and security patches
- On-site maintenance and support
- Skilled, experienced, certified staff

Supported Platforms

Dynamics CRM
Windows Server
SharePoint Server
Exchange Server
SQL Server
Office Suite
more

Service Features at a glance:

- Integral Microsoft license management
- Data centers owned and managed by Matrix
- Integral Internet security management
- Capital expenditures greatly reduced or eliminated
- Service level of >99.9% guaranteed
- Scalability - From single servers to hundreds of locations

Who are we?

We are Matrix, a computing services resource founded in 1998 to offer growing businesses a big business computing experience. Taking care of your growth and solution integration needs is our business.

What do we do?

We partner with blue-chip software solution providers like Microsoft to provide small to mid-sized businesses with an enterprise grade alternative to in-house infrastructure implementations.

Why do you need DataServe Lite?

Collaboration

- Share contacts, calendars, etc.
- Manage tasks
- Track resources

Anywhere Access

- Manage Inbox Overload
- Enhance Voice Mail
- Collaborate Effectively

Flexible and Reliable

- Continuous Availability
- Simplify Administration
- Deployment Flexibility

Optimized for
Lower Total Cost

How does DataServe Lite cost compare?

Hosted Microsoft Exchange Server can provide a lower total cost of ownership due to economies of scale associated with a shared system infrastructure. Investing and reinvesting in servers and peripheral hardware is no longer necessary.
